AND VIRGINIA ADVERTISER  
PUBLISHED DAILY BY  
EDGAR B. SHOWN.  
Office—Gazette Building, No. 70, Prince.

Terms of Subscription—Invariably in Advance  
One Year \$4.00  
Six Months \$2.50  
Three Months \$1.50  
One Month .75

**ALEXANDRIA GAZETTE**  
AND VIRGINIA ADVERTISER.  
(FOR THE COUNTRY)  
Published regularly on TUESDAYS, THURSDAYS and SATURDAYS, at SIX DOLLARS PER ANNUM—payable in advance.

**TERMS OF ADVERTISING:**  
One square, or eight lines, one dollar, for the first insertion; and twenty cents for each subsequent one. Liberal terms made for yearly adverstisements. Notices and Obituaries will be charged for. All communications of a personal character, will be charged for at advertisement rates. All communications must be accompanied by the names of the authors, and rejected communications cannot be returned.

**A NEW FUEL AND A NEW MOTOR.**—It has been reserved for the distinguished engineer Captain Ericsson to supply a new fuel in the place of coal, and a new motor in the place of steam. His device is as novel in conception as it promises to be astounding in result. In brief, his scheme is to collect and concentrate the radiating heat of the sun, and to use it for the production of motive power. He feeds his furnace, so to speak, from the sun. This motor he calls the *solar engine*.

The first public announcement of the success of this extraordinary device—for "solar engines," kept in motion solely by the sun's radiant heat, have been actually constructed by him and successfully operated—was made by Captain Ericsson to the Swedish University of Lund at its late centennial celebration. From his communication to that body it appears that for several years this engineer has been experimenting with the view of so concentrating the sun's heat as to obtain from it practical motive power. At length at the beginning of the present year, he was able to construct three "solar engines," of which, the first was driven by heat formed by the concentration of the beam of the solar rays, and the other two by the expansion of atmospheric air heated directly by concentrated radiant heat. He shows that such is the enormous development of solar heat that an area of ten feet square on the sun's surface will drive "a real steam engine of 45,984 horse power, demanding a consumption of more than 100,000 pounds of coal every hour." But, of course, interesting as are these new studies of the sun's heating power, his statistics regarding the possible concentration of the sun's heat on the earth's surface are still more so. And, without going into the process, we may briefly say that Captain Ericsson's experiments show that the concentration of solar heat on ten feet square (or 100 square feet of surface) develops a power exceeding one horse power. If, therefore, he adds, a Swedish square mile covered with these solar engines, "64,500 engines, each of 100-horse power," could be kept in motion by the radiant heat of the sun thus collected.

The audacity of this enterprise and the incalculable reach of its results are alike bewildering; but it is already, as we have said, a practical success, inasmuch that Mr. Delamater, proprietor of the well-known Delamater Iron Works, declares in a late scientific publication that "before the termination of the present season bread will be prepared from flour ground by the power of the solar engine."—*New York Times*.

**A CHILD WITHOUT A HEAD.**—In the vicinity of Spoon river, in Illinois, is a child which was born and has lived five years without a head. Mrs. —, the mother, is the widow of a soldier, formerly living in Marshall county, who enlisted in the sixty-fifth or Scotch regiment, and was killed at the battle of Devington, Mo. She was standing beside her husband during the engagement, when a cannon ball carried his head completely away, his body falling into her arms and covering her with blood. The shock affected her greatly, and when, in seven months afterwards, her child was born, there was not the semblance of a head about it. The limbs were perfectly developed, the arms long, and the shoulders where the head and neck should be, smoothly rounded off.

But the most surprising thing of all is that the face is situated in the breast. Of course, there being no neck, the power of turning its head is wanting, except as the whole body is moved; but this difficulty is overcome by the singular facility it possesses of turning its eyes in their sockets, enabling it to see quite as well on either side of its body perfectly formed. The upper portion of its body is white as the purest Caucasian; from the waist downwards is a blood red. This strange creature, now an active boy of five years old, as it to compensate for its deformity, possesses the most clear and bird-like tones ever listened to, singing with singular correctness everything it may hear, and its voice at this early age accomplishing two octaves easily?

**AFFAIR ON THE B. & O. R. R.**—The Baltimore Gazette says: Last evening, upon the arrival of a way train at the Mount Clare depot of the Baltimore and Ohio railroad, two men were found lying in one of the closed cars, one of them dead and the other in an insensible condition. The latter was removed to the Western Police Station by officer Leeb, where, by the application of proper remedies, the man was restored to consciousness when he stated that his name was John Joyce, a laborer in the employ of the B. & O. R. R., engaged at a point between Woodstock and Elysburg, and that he had been hurt about one of the legs by the falling of a large stone, and was placed in the car with the understanding that he was to be sent to the Lombard street Infirmary for treatment. He added that the dead man's name was George Semper, a brakeman in the employ of the railroad company, who had been run over and badly hurt at Woodstock, and was also placed in the car for removal to this point. Joyce said that Semper was in great agony during the trip and was apparently dying, but the heat was so intense, the car being closed, that he feared to leave it, and he supposed Semper died about the time of arrival here, as he was alive shortly before. No one was particularly in charge of the men, so far as could be ascertained, and the agent at Mount Clare knew nothing of them being in the car until their presence was accidentally discovered.

**FERTILIZERS.**  
I have on hand a full supply of No. 1 PERUVIAN GUANO.  
Also, RODONDA, at importer's prices, adding expenses.  
Patapago Guano, a celebrated article for wheat growers, and Chesapeake Guano, prepared by Isaac Reynolds & Son, at their works in Baltimore. Call at No. 18, Union wharf.  
B. H. LAMBERT.  
BARGAINS IN CLOTHS, CASSIMERES, Tweeds, Cassinets, Kentucky Jeans, and all goods for men and boys at very low prices.  
ROBERT L. WOOD.  
No. 62, cor. King & Fairfax sts.

## SPECIAL NOTICES.

### To Farmers and Planters.

**THE Lodi MANUFACTURING CO.**, the oldest and largest concern of the kind in the United States, possessing extraordinary facilities for the manufacture of Fertilizers, controlling exclusively the night soil, offal, bones and dead animals of New York, Brooklyn and Jersey cities, as also the great Communiawabators, offer for sale, in lots to suit customers, **8,000 TONS OF**  
**DOUBLE REFINED POUDRETTE.**  
Made from night-soil, blood, bones and offal, ground to a powder.  
Its effects have been most astonishing, doubling the crops and maturing them 10 days or 2 weeks earlier. Equal to the best brands of Superphosphate for Present Crop, although sold only for **THIRTY DOLLARS PER TON**  
Packed in bbls. of 250 lbs. each  
**BONE DUST.**  
1—Coarse and Fine mixed. 2—Fine, suitable for Drilling. And 3—Flourish Bone.  
We warrant our Bone to Analyze Pure Packed in bbls. of 250 lbs. each. For Winter grain, Double-Refined Poudrette and Fine Bone, mixed in equal proportions and drilled in with the seed, have produced most remarkable effects. Sold as low as any article of same purity and fineness in the market.  
**NITRO-PHOSPHATE OF LIME.**  
We offer this Phosphate confidently as being as good, if not superior, to any ever made or sold in this market, containing a larger amount of soluble Phosphate and Ammonia than usual in Superphosphates. For permanent, as well as for immediate powerful effect upon land, it has no equal.  
Price in New York, \$55 per ton of 2,000 lbs. For Price Lists, Circulars, &c., apply to **HOOE & WEDDERBURN.**  
my 30—6m Alexandria, Va.

**DOUBLED REFINED POUDRETTE.**  
Made from night-soil, blood, bones and offal, ground to a powder.  
Its effects have been most astonishing, doubling the crops and maturing them 10 days or 2 weeks earlier. Equal to the best brands of Superphosphate for Present Crop, although sold only for **THIRTY DOLLARS PER TON**  
Packed in bbls. of 250 lbs. each  
**BONE DUST.**  
1—Coarse and Fine mixed. 2—Fine, suitable for Drilling. And 3—Flourish Bone.  
We warrant our Bone to Analyze Pure Packed in bbls. of 250 lbs. each. For Winter grain, Double-Refined Poudrette and Fine Bone, mixed in equal proportions and drilled in with the seed, have produced most remarkable effects. Sold as low as any article of same purity and fineness in the market.  
**NITRO-PHOSPHATE OF LIME.**  
We offer this Phosphate confidently as being as good, if not superior, to any ever made or sold in this market, containing a larger amount of soluble Phosphate and Ammonia than usual in Superphosphates. For permanent, as well as for immediate powerful effect upon land, it has no equal.  
Price in New York, \$55 per ton of 2,000 lbs. For Price Lists, Circulars, &c., apply to **HOOE & WEDDERBURN.**

**BONE DUST.**  
1—Coarse and Fine mixed. 2—Fine, suitable for Drilling. And 3—Flourish Bone.  
We warrant our Bone to Analyze Pure Packed in bbls. of 250 lbs. each. For Winter grain, Double-Refined Poudrette and Fine Bone, mixed in equal proportions and drilled in with the seed, have produced most remarkable effects. Sold as low as any article of same purity and fineness in the market.  
**NITRO-PHOSPHATE OF LIME.**  
We offer this Phosphate confidently as being as good, if not superior, to any ever made or sold in this market, containing a larger amount of soluble Phosphate and Ammonia than usual in Superphosphates. For permanent, as well as for immediate powerful effect upon land, it has no equal.  
Price in New York, \$55 per ton of 2,000 lbs. For Price Lists, Circulars, &c., apply to **HOOE & WEDDERBURN.**  
my 30—6m Alexandria, Va.

**DOUBLED REFINED POUDRETTE.**  
Made from night-soil, blood, bones and offal, ground to a powder.  
Its effects have been most astonishing, doubling the crops and maturing them 10 days or 2 weeks earlier. Equal to the best brands of Superphosphate for Present Crop, although sold only for **THIRTY DOLLARS PER TON**  
Packed in bbls. of 250 lbs. each
